

Subject index to *The Milk Industry*, 1974

This index covers the editorial contents of volumes 74 and 75 published between January and December 1974, inclusive. For ease of reference, subjects are generally listed under the key word in the title (ie Bottling: the future for aseptic. UHT milk: British samples in Moscow) but where deemed necessary, cross references are given. The entries under "Milk" and "Dairy" have been kept to a minimum.
